# WE GIVE POWER TO SPORT BY EMPOWERING OUR MEMBERS.

## WHY DO YOU DO WHAT YOU DO?

If you believe sport and active recreation are a vital part of a healthy lifestyle, we agree with you.

If you believe that these activities can improve the lives of many more Victorians than they already do, again we agree with you. Wholeheartedly!

In fact, if you believe that part of the reason you work in the field of sport and active recreation is to achieve this, then we're playing on the same team as you.

## IT'S WHY WE DO WHAT WE DO.

There is no doubt remaining that an active lifestyle provides positive results in many ways. The research is conclusive.

Possibly the most important benefit is a better state of being – it's a fluffy term but we all know what it means without requiring a definition or scientific measurement.

In your particular field of work, whatever aspect of sport and active recreation it involves, that is the bottom line. It's easy on occasions to lose track of why we keep going in spite of the difficulties most such jobs entail, but it is what drives us.

**It not only drives us at Vicsport, but it is the very reason we exist as an organisation.**

## OUR MISSION IS TO EMPOWER YOU.

To be more specific, Vicsport exists to assist you and the organisation you work for. You are at the coal face, working to achieve your specific goals. The way we achieve our goals is by making you successful.

So in a very important way we are all running the same race. That's why we want you to become an integral part of our team. A Member.

By partnering with Vicsport as a Member, we can work together to facilitate the participation of Victorians in sport and active recreation and we can help you with your career in the industry.

## SO MUCH TO KNOW, SO LITTLE TIME TO LEARN IT.

As you are aware, the most difficult part of most careers in the sport and active recreation industry is keeping up to speed on the latest information.

Things change and evolve at a rate that can make your head spin. Legislation, Government Policy, employment opportunities, funding programs – these and just about every other factor in providing opportunities for participants is in a constant process of change.

How do you – or your organisation – keep across all the latest information?
